Summary

“ Software Developer with hands-on experience in React.js, JavaScript, Node.js, Express.js, and MongoDB. Developed full-stack and frontend web applications with REST API integration, authentication, CRUD operations, and database management. Strong problem-solving skills with a passion for learning and building scalable software.”

Skills

Programming & Querying: HTML, CSS, JavaScript, React.js, Java, Python, MongoDB.

Tools: VS Code, Git & GitHub, MySQL Workbench, Postman (API Testing).

Soft Skills: Communication skills, Time Management, Team Collaboration.

Database: MongoDB, MySQL.

Experience

Web Development Intern

March 2025 – April 2025

VaultofCodes (Remote)

Tools Used: Google sheet, HTML, CSS, JavaScript.

- Developed “Editkaro.in” – a fully responsive website for a video editing agency using HTML, CSS, and JavaScript.
- Build a dynamic portfolio page with 10+ categorized video edits. **Gaming, Anime, Ads, etc.)**
- Integrated Google Sheets with Apps Script for automated lead/data collection, improving efficiency.
- Recognized as “sincere, hardworking, and result-oriented” by the team.

Projects

Lost & Found Portal | *React.js, Node.js, Express.js, MongoDB*

Jan 2026 – Apr 2026

- Built a full-stack Lost & Found Portal using the MERN stack.
- Implemented JWT authentication, CRUD operations, and REST APIs.
- Integrated search functionality with MongoDB for efficient item management.
- Designed a responsive and user-friendly interface using React.js.

Editkaro.in-Video Editing Agency Website | *HTML, CSS, JavaScript,*

March 2025 – April 2025

- Built a fully responsive multi-page website with Home, About, Portfolio, and Contact pages for a video editing agency.
- Integrated Google Sheets using Apps Script to automatically store and manage contact form submissions.
- Developed a categorized portfolio section showcasing various types of video edits (short form, long form, gaming, ads).
- Implemented SEO fundamentals: meta tags, alt attributes, and performance optimization.

Weather App | *HTML, CSS, JavaScript*

March 2025 – April 2025

- Developed a real-time weather application with city search and live location support using the Geolocation API
- Displayed temperature, feels-like, humidity, cloudiness, wind speed, and weather description.
- Integrated sunrise/sunset timings and country flags using data from the OpenWeather API.
- Built a clean, responsive UI and deployed it on a live server.

Certifications

- **Web Development Intern Certificate – VaultofCodes (2025):** Completed a 1-month web development internship and recognized as sincere, hardworking, and technically sound.
- **Java (Basic) Certificate – HackerRank (2026):** Demonstrated proficiency in Java fundamentals, including object-oriented programming, data types, control structures, functions, and basic problem-solving skills.

Education

B.Tech in Computer Science and Engineering

Expected Graduated: 2027

Shri Ramswaroop Memorial University, Barabanki, Lucknow

CGPA: 6.44/ 10
